

INFORMATION ABOUT FEES (Private Health Insurance)

We are a registered and accredited Private Day Hospital. We aim to provide the highest possible standard of care and quality to all our patients.

The fees for your procedure are as follow:

1: **Doctor's fees** - the Doctors at this facility are part of the "no Gap" arrangement with most Australian Health Funds. Therefore, your accounts for the Surgeon and Anaesthetist will be sent directly to your Health Fund for payment on your behalf. You will not get an account in the mail.

2: **Day Hospital fee**- The Day Hospital fee will be covered by your Private Health Fund if you have "Hospital Cover". You may be required to pay an "excess" or "co-payment" for the procedure depending on your level of cover.

If you have "Public Hospital Cover" or "Basic Hospital Cover", you will be asked to pay part of the Day Hospital Fee as your Health Fund will not cover the entire account.

If you have "Ancillary / Extras Cover Only" you will not be able to claim through your fund for your procedure at our facility.

If you joined the health fund in the last 12 months, you may not be covered under the 12 month Pre-Existing Ailment Rule. Please check this with your health fund.

Our staff will do an Eligibility Check with your Health Fund. However, it is important that you check with your Health Fund to confirm what you will have to pay on the day.

When we contact you to confirm the appointment 3 days prior to the procedure, we will also inform you of the fee (if any exists) that you will be required to pay on the day.

3: **Pathology** - We use Southern IML Pathology services (SIML). SIML will bill your Health Fund directly under the "No Gap" agreement and your Health Fund will pay your account.
